## PHOTO AND IMAGES POLICY

### **Rationale:**

To enhance the reporting of children's learning and development, children's activities undertaken during preschool sessions are often photographed or other digital images such as short videos are taken. These images are made in line with the expectations of ACECQA (National Quality Standards) and Early Years Learning Framework, along with DECD Reporting Guidelines.

### **Context**

Agnes Goode Kindergarten and Occasional Care utilises the use of children's photos / images in reporting and educational procedures.

- These photos and images are printed for display around the preschool, on notice boards and in Learning Portfolios.
- Photos and images of your child may be shared with other families from our preschool community by inclusion on our facebook website, newsletters or short computer presentations.
- Enrolled families will be asked to confirm they have read and understood this policy by signing the Agnes Goode Kindergarten or Occasional Care photo permissions form at enrolment time.

This Policy will be shared with all new staff and families, and available to view in the preschool policies booklet and on the preschool website.
